iLearn load

- No lateness groups were assigned, so iLearn may struggle under the load.
- IT have been forewarned.
- If iLearn fails, the deadline will be extended automatically – no special consideration required.

Need extra time?

- Disorganised? Take the 5% per day penalty.
- Sick or had an accident? Apply for a special consideration.
- Applications can be submitted up to a week later (see Week 1 slides for details).

Jupyter notebooks

- Computer science students should install locally with `uv run --with=jupyter jupyter notebook`.
- Other students can use `https://colab.research.google.com/`.
- Either option is fine and we support both arrangements.
